SUMMARY

Experienced Front-End Engineer with over 3 years in software development, contributing to successful projects for major companies in Saudi Arabia, including MDD Company. Highly motivated, punctual, and adaptable, thriving in both independent and team environments. Open-minded and quick to learn new technologies, ensuring seamless integration into diverse work settings

WORK EXPERIENCE

Front-End Developer | MDD Company (Saudi Arabia – Egypt Branch) | Jan 2023 – Present

- Develop and maintain responsive web applications, ensuring seamless user experiences.
- Collaborate with cross-functional teams to implement UI/UX designs and enhance website performance.
- Optimize web applications for speed, scalability, and cross-browser compatibility.
- Work with modern front-end technologies and frameworks to deliver high-quality solutions.
- Troubleshoot and debug front-end issues to maintain optimal functionality.

PROJECTS

Benaa Educational Platform, Kingdom of Saudi Arabia
January 2023 — Present

"An educational platform developed for Al-Ahsa schools in Saudi Arabia, designed to scale globally. Actively developed for the past three years, with a projected seven-year roadmap to enhance features and expand its market reach. Currently serving 20,000 users, the platform is built using **Angular TypeScript**, **Bootstrap**, and **Sass** for the front end, with a **.NET** backend ensuring scalability and performance.

The system includes **four distinct dashboards**—**Admin**, **Student**, **Teacher**, and **Supervisor**—each tailored with dedicated **features and modules** to support their respective roles, such as user management, class tracking, performance monitoring, communication tools, and scheduling.

Live Platform: http://ahmedtalaat889-001-site17.qtempurl.com/auth/login"

Prayer times app, Kingdom of Saudi Arabia
March 2022 — May 2022

Developed a prayer application tailored for users in Saudi Arabia, leveraging **React.js, Material-UI, and API integrations** to provide accurate prayer times and a seamless user experience. Designed for responsiveness and performance, ensuring accessibility across various devices.

Live App: https://prayertimes-65e17.web.app/

Website Movies List
June 2022 — August 2022

Developed a dynamic movie listing website using React.js, CSS, and API integrations to fetch and display real-time movie data. Designed for an intuitive user experience with responsive layouts and smooth navigation. The live link for the website is https://movies-list-8c6bd.web.app/

Website Movies List with redux
August 2022 — October 2022

Developed a dynamic movie listing website using React.js,Redux, CSS, and API integrations to fetch and display real-time movie data. Designed for an intuitive user experience with responsive layouts and smooth navigation. The live link for the website is https://movies-list-with-redux.web.app/

Personal Portfolio Website
February 2021

"Created a personal website to showcase my work and provide a central hub for my **social media links**, featured **projects**, and a **contact form** that allows visitors to send me messages directly via email. Built with **React.js** and **CSS**, the site is fully responsive and designed for a smooth user experience.

Live Demo: mohamedhassanalialielsay.web.app"

Simple E-commerce Website
June 2022

"Developed a fully functional e-commerce web application using **React.js**, **CSS-**, **Bootstrap**, **Redux**, and **API integrations**. The app includes product listings, a shopping cart, and dynamic state management for a seamless user experience. Built with a responsive design to ensure usability across all devices.

Live Demo: e-commerce-213a1.web.app"

Admin Dashboard
November 2022

"Built a responsive and feature-rich admin dashboard using **React.js** and **Material-UI**, designed to manage business operations efficiently. The dashboard includes interactive **charts**, **forms**, **invoices**, a **calendar**, **pie chart visualizations**, and a **contact management** section. Ideal for administrative oversight and data visualization in modern web applications.

Live Demo: admin-dashboard-ae827.web.app"

EDUCATION

Bachelor's Degree - Biosystems Engineering Department
Mansoura University, Egypt
October 2012 — May 2017

Graduated with a Very Good grade | Ranked First in Stage
